

# THE 64 HEXAGRAMS COMPARED WITH THE TWELVE MONTHS IN FUXI ORDER

Left vertical : the six lines from bottom to top as I to VI

Top horizontal : the twelve months in Fu Hsi order as: I = March (Vernal Eqn.), II = April, III = May, IV = June (Summer sols.), V = July, VI = August, VII = September (Autumn Eqn.), VIII = October, IX = November, X = December (Winter Sols.), XI = January and XII = February.

And: the twelve Lunar months as: 1 = New Moon in february, 2 = New Moon in march and so on.

Bottom horizontal : the hexagramnumbers according to the king Wan order.

The black colored rows are Yin or broken lines and the red is Yang or unbroken lines.

The vertical green line in the center separates the whole system with 32 hexagrams in each part.

Remark: the strokes between the ciphers (to example 11 = 10) only to separate them.
